

A NOTE ON OUR FINANCES

FY2024 Independent Audit

Well Aware publishes an independent audit alongside our 990 each year as part of our commitment to full financial transparency. This year, our board made the difficult but deliberate decision to forgo the FY2024 audit—redirecting those dollars to the water systems and communities we serve in Kenya. It wasn't a decision we made lightly, and we're noting the gap directly rather than leaving it unexplained. Our complete 990 is available below. We've resumed audited financials for FY2025 and will publish results here when complete.
